12 BARREL SOPEP KIT

Product Benefits

• In line with the **Marpol Convention standards.** • **Minimize oil outflow** if operational spills occur onboard. • **IMPA Code:** 232532 • **Absorbent capacity of 1,900 liters.** • **Storage capacity of 2,000 liters** for recovered oil. • Kit is supplied in **two 1,100 liter Wheeled bins.** • **Item Code : SC-141-010**	

The **Ship Oil Pollution Emergency Plan (SOPEP)** requires any ship with a **gross tonnage of 400 tons or over**, or any **oil tanker with a gross tonnage of 150 tons** or over, to have onboard an oil prevention plan as per the guidelines of the **International Maritime Agency**. The primary objective of this is to stop or **minimize oil outflow** in the event of when either damage to the ship or when operational spills occurs.

Suitable for use on **cargo vessels and oil tankers** the kit includes **oil only absorbents for the recovery of 1,900 liters of oil** and large waste bags for the **storage of up to 2,000 liters of recovered oil** and is stored within **one robust and lockable 1,900 liter Wheeled bin**.
