

Chemical Absorbent Sock

Product Benefits

- Deal for demanding environments where **fast recovery of aggressive chemicals is essential**
 - **Flexible knitted fabric** that expands quickly to increase the rate of absorption
 - **Class leading absorbency rate** for superior performance
 - **Dimensions:** 1200mm x 76mm
 - **Pack Quantity:** 20
 - **Absorbency Rate per Sock:** 4
-
- **Item Code:** SC-09-301

The **Chemical Sock** is ideal for environments where the fast, effective containment and recovery of non-aggressive and aggressive chemicals is essential.

It is constructed using a **flexible knitted fabric that expands quickly to increase the rate of absorption** whilst providing improved strength, liquid retention and durability. A superior absorbent fill results in the Chemical Sock having a class leading absorbency for superior performance.
