

Chemical Medium Weight Pads

Product Benefits

- Double spun bonded layer gives excellent tensile strength
- Reduced linting
- Suitable for delicate moving parts or machinery
- Perforated for economical usage
- Suitable for absorbing both **Chemical based liquids**
- Available in packs of 100
- Absorbs 1 liter per pad
- **Dimensions:** 50cm x 40cm
- **Item Code.** SC-05-302

Our range of **Medium Weight Chemical Pads** are an ultrasonically bonded pad that delivers an absorbency rate of 1 liters per pad and are designed to absorb a wide range of aggressive and non-aggressive chemicals whilst retaining its strength even when wet.

Constructed with a single spun bond cover sheet to help retain the pads shape and reduce linting making them suitable for use in lint free environments while the pads dimpled surface yields faster absorbency and improved liquid retention.

They are perforated for economical usage and improved versatility and are ideal for outdoor or indoor use.
