The **Oil & Fuel 25** emergency bag spill kit is ideal for dealing with small sized spills of oil based liquids such as fuels, lubricants and other hydrocarbon based products. Our oil absorbents are hydrophobic, meaning that they can be used for the selective recovery of oil from water.

The kit consists of cost effective **absorbents** that are manufactured from high quality melt blown polypropylene and It is constructed using a strong tubular knitted outer fabric sleeve allows for durability, expansion and improved speed of absorption. Filled with a super absorbent polymer that retains all liquids absorbed. Ideal for all workplace spills and leaks.

The spill kit is supplied as a full kit in a carry bag that allows it to be positioned wherever required.
