

Premium Fabric Chemical Cushion

Product Benefits

- Ideal for demanding environments where **fast recovery of Chemical based spills is essential**
- **Flexible knitted fabric** that expands quickly to increase the rate of absorption
- **Class leading absorbency** rate for superior performance
- **Dimensions:** 350mm x 300mm
- **Absorbency Rate per Cushion:** 4 Liter
- Item Code : SC-06-301

The **Premium Fabric Chemical Cushion** is ideal for environments where the fast, effective **containment and recovery of Chemical based spills**.

It is constructed using a Flexible **knitted fabric** outer surface is expands quickly to increase the rate of absorption. Filled with a super absorbent polymer that retains all liquids absorbed. Ideally suited for exterior use

Suitable for absorbing petroleum based liquids and for the selective recovery of absorbing aggressive fluids including acids and alkalis. Chemical absorbent cushion ideal for use as a barrier to encircle a spill. Absorb any nuisance leaks or drips.
