

Premium Fabric Universal Socks

Product Benefits

- Ideal for demanding environments where **fast recovery of oil & water based spills is essential**
- **Flexible knitted fabric** that expands quickly to increase the rate of absorption
- **Class leading absorbency** rate for superior performance
- **Dimensions:** 1200mm x 10cm
- **Absorbency Rate per Sock:** 4 Liter

- Item Code : SC-09-101

The **Premium Fabric Universal Sock** is ideal for environments where the fast, effective **containment and recovery of oil & water based spills**.

It is constructed using a Strong tubular knitted outer fabric sleeve allows for durability, expansion and improved speed of absorption. Filled with a super absorbent polymer that retains all liquids absorbed.

Suitable for absorbing oil and water based liquids including paints, solvents, coolants and mild chemicals. Universal absorbent sock ideal for use as a barrier to encircle a spill or placed around the base of drums and machinery to absorb any nuisance leaks or drips.
