

Oil & Fuel Heavy Weight Pads

Product Benefits

- Double spun bonded layer gives excellent tensile strength
- Reduced linting
- Suitable for delicate moving parts or machinery
- Perforated for economical usage
- Suitable for absorbing both **oil based liquids**
- Available in packs of 100
- Absorbs 1.2 liter per pad
- **Dimensions:** 50cm x 40cm
- **Item Code.** SC-05-201

Our range of **Spilchoice Heavy Weight Oil & Fuel Pads** are an ultrasonically bonded hydrophobic pad that delivers an absorbency rate of 1.2 liter per pad and are designed to selectively absorb **oil based liquids** such as fuels, lubricants and other hydrocarbon based products. Our oil absorbents are hydrophobic, meaning that they can be used for the selective recovery of oil from water. They are perforated for economical usage and improved versatility and are ideal for use outside.

Layer of spunbond material attached to the top surface of the pad reduces linting and improves the strength
