

7 Barrel SOPEP Kit – Premium Fabric

Product Benefits

- In line with the **Marpol Convention standards**.
- **Minimize oil outflow** if operational spills occur onboard.
- **IMPA Code:** 232531
- **Absorbent capacity of 1,100 liters.**
- **Storage capacity of 1,200 liters** for recovered oil.
- Kit is supplied in **1,100 liter Wheeled bins**.
- **Item Code : SC-141-011**

The **Ship Oil Pollution Emergency Plan (SOPEP)** requires any ship with a gross tonnage of 400 tons or over, or any oil tanker with a gross tonnage of 150 tons or over, to have onboard an oil prevention plan as per the guidelines of the International Maritime Agency. The primary objective of this is to stop or minimize oil outflow in the event of when either damage to the ship or when operational spills occurs.

Suitable for use on cargo vessels and oil tankers the kit includes oil only absorbents for the recovery of 1,100 liters of oil and large waste bags for the storage of up to 1,200 liters of recovered oil and is stored within one robust and lockable 1,100 liter Wheeled bin.

The kit consists of cost effective absorbents that are manufactured from high quality melt blown polypropylene and It is constructed using a strong tubular knitted outer fabric sleeve allows for durability, expansion and improved speed of absorption. Filled with a super absorbent polymer that retains all liquids absorbed. Ideal for all workplace spills and leaks.

The spill kit is supplied as a full kit in a mobile wheeled bin that allows it to be positioned wherever required.

Spill Kit Content

- 1 x 1100 Liter Wheeled Bin – Yellow
- 200 Pcs – Oil and Fuel Absorbent Pads 50cm x 40cm
- 20 Pcs – 3 Meter x 12cm Oil Only Absorbent Net Boom

PRODUCT DATA SHEET

Ref: FL/SK/INT Date: 01.01.2021

- 1 No's – 76cm x 46 Meter Oil Only Absorbent Roll
- 1 x SOPEP Bucket
- 3 – 1 Gallon Deck cleaning solution
- 12 - Yellow Disposal Bags & Tie
- 1 – PVC Boot
- 1 - Disposable Coverall
- 10 - pair of Disposable Nitrile Gloves
- 1 - Goggles – Splash Resistant
- 1 - Jet Spray Unit

Instructions for use: It is important that a suitable and sufficient Risk Assessment is carried out on each incident and correct PPE is worn. Depending on the nature of the spill a combination of the contents of the kit may be used.

Compatibility: The absorbents within this kit may be safely used with all liquids immiscible with water, such as hydrocarbons, solvents, mineral oils. Water-repellency exceeds requirements of BS 7959-2:2000. Before any use in a spill situation a proper risk assessment should be carried out and all hazardous properties of the liquid or dangerous reactions taken into account.

Disposal: Used sorbents may be disposed of by landfill or incineration, in accordance with local and national regulations, taking into account the classification of the liquid absorbed.

Safety Data: Further technical advice is available if required.

Note: All weights, dimensions, and other figures quoted are approximate.

SPECIFICATION

Dimensions of Container & Volume	Ext. width x Depth x Height 1373 x 1073 x 1354
Fluids Absorbed	Oils & Fuels, Lubricants, Hydrocarbon Based Products and Selective recovery of oil from water.
Absorbency	Up to 1100 Liter to 1100 Liter
Container Color & Weight	Yellow Wheeled Bin – 75kg
