

## Absorbent Boom – Sock and Net (3meter x 20cm)

### Product Benefits

- Absorbs **40 liters per boom**
- Ideal for the **absorption of oil spills**
- For use in **rivers, harbors, construction sites**
- Booms can be **overlapped** for large scale containment
- **Pack Quantity: 4**
- **Pack absorbency: 120**
- **Dimensions (mm): 3000 (l) x 200 (diam.)**
- **Item Code. SC-01-003**

The **Absorbent Boom (3000mm x 200mm)** has been developed for the containment and **absorption of oil spills and debris** in rivers and harbors. The boom has a **polypropylene inner** and can absorb **40 liters of oil** and diesel spills and can cover large areas by overlapping the booms with the fitted clips and rings.

They are easy to deploy and can be **used in inland rivers, canals** or often they are applied to **containing construction site run-off**.
