

## TECHNICAL DATA SHEET

### Bullman Safety Shoes BM1002

Bullman Safety Shoes BM1002 leather safety boot with double density poly urethane sole. Shoe with a reinforced toe cap to minimize foot injuries caused by dropped articles. And also shoe with a sole of material incapable of sparking for work near combustibles or explosives. So its offering full protection.

Safety shoes BM1002 Bullman offer protection from punctures, cuts, burns and impact and more. Safety boots also offer grip when walking on slippery or un even surfaces, helping to prevent slips and falls which can lead to more serious problems such as broken bones and head injuries. Also penetration resistance (mid sole protection), conductive, anti static, insulated against heat or cold, energy absorbing, outsole resistant to hot contact, water resistant. Anti skid poly urethane adhesive sole, so its better for slippery area.

**Applications:** General use and welding in multiple sectors and applications where a safety footwear is needed (safety cap and anti perforation template), such as construction, work shops, logistics, automotive and manufacturing and industry in general.

#### Features and benefits:

- Upper Barton Action Leather
- Steel Toe.
- Anti skid poly urethane adhesive sloe.
- Maximum anti slip coefficient SRC.
- Lining Cambrella.
- Steel Midsole.
- Outsole PU/PU.
- Safety standard S3 / SRC.
- Black Color.
- Type: Safety Shoes & Boots.
- Easy to clean.
- Available High cut and low cut.

Brand: Bullman

Country of Origin: China

Item Code: BM1002

Size 38|39|40|41|42|43|44|45|46|47|48
