

## TECHNICAL DATA SHEET

### Bullman Safety Shoes BM1004

Bullman safety shoes BM1004 with double density poly urethane sole. Shoe with a reinforced toe cap to minimize foot injuries caused by dropped articles. And also shoe with a sole of material incapable of sparking for work near combustibles or explosives. So, its offering full protection.

Bullman offer protection from punctures, cuts, burns and impact and more. Safety boots also offer grip when walking on slippery or un even surfaces, helping to prevent slips and falls which can lead to more serious problems such as broken bones and head injuries. Also, penetration resistance (mid sole protection), conductive, anti-static, insulated against heat or cold, energy absorbing, outsole resistant to hot contact, water resistant. Anti-skid poly urethane adhesive sole, so it's better for slippery area.

**Applications:** General use in multiple sectors and applications where a safety footwear needed (safety cap and anti-perforation template), such as construction, workshops, logistics, automotive and manufacturing and industry in general.

#### Features and benefits:

Upper Breathable PU Leather  
Steel Toe.  
Anti-skid sole.  
Maximum anti slip coefficient SRC.  
Steel Midsole.  
Outsole PU  
Black Color  
Type: Safety Shoes & Boots.

Brand: Bullman

Country of Origin: China

Item Code: BM1004
