New!

First Aid Kit Large

First Aid on the go – always ready to help out.

The new upgraded First Aid Kit Large means that you always have a small emergency department close at hand. The products are easy to use and come with clear instructions. This means that they can be used by everyone, everywhere. The case is a great complement to the wall-mounted Cederroth First Aid Station, if your work means that you are often on the go.

Easy to carry

Easy-grip handle to prevent it from slipping out of your hand.

Visible from a distance

The kit is bright green and yellow, making it easy to see from a distance.

Durable case with a matte finish

The case is made from a moulded, rubber-like material to keep dust, moisture and dirt at bay. It keeps the equipment hygienically clean, so it is always ready to be used.

Well-organised

You can clearly see all the products as they are packed in transparent plastic pockets. It is easy to find the product you need when every second counts.

Space for your own supplies
