

## Universal (Maintenance) Absorbent Roll 50cm x 43 meter

### Product Benefits

- Universal rolls can be used on walkways or as individually torn off pads
- Heavy weight melt blown rolls for increased absorbency
- Ultrasonically bonded for increased strength
- Dimpled design for rapid absorption
- Ideal for use indoors on most oil and water based liquids
- Absorbs 120 liters per roll
- Dimensions: 43meter x 50cm
- All products available in boxes or bags
- Item Code : SK-08-102

Our range of **Heavy Weight rolls** are a melt blown, ultrasonically bonded, highly versatile absorbent that can be used inside working environments to absorb most oil and water based liquids including paints, solvents, coolants and mild chemicals.

Measuring 0.5 meters in width allows for the roll to be adapted for a number of different applications, such as being used as a walkway, as individual pads that can be torn along the perforated edges or they can be torn into long strips and located next to machines that have a tendency to leak or spray.

They are bonded for increased strength and durability with a dimpled surface that quickens up the wicking process for rapid absorption.
