

PRODUCT:

PROstic Aluminium Foil has a shiny silver soft backing with a transparent acrylic adhesive. The tape offers for long serviceable life indoors and outdoors. The adhesive is designed to provide very good adhesion and also provides an excellent performance with long term holding power for a variety of metal/plastic working applications

FEATURES:

- High masking from Heat and Light.
- High moisture barrier
- Good holding power.
- Easy to dispense
- Good adhesion.

PROPERTIES:

Color	:	Shiny Silver
Tensile Strength	:	6.2kg/2.5cm
Adhesion to Steel	:	1400gms /2.5 cm
Total Thickness	:	80 microns
Foil Thickness	:	50 microns
Elongation at break	:	4.5% percent
Temperature resistant	:	150°C
Foil Temp. resistant	:	800 °C
Electrical Conductivity	:	0.007
Release Paper	:	Silicon Release Paper
Dimensions	:	50mm x 50 mtrs

Tests: Ref IS 8402

**STORAGE CONDITIONS:**

Store in a clean and dry area free of moisture. Temperature of 4-26°C and 40-50% relative humidity are recommended.
