

Universal Heavy Weight Pads 40cm x 50cm

Product Benefits

- Universal rolls can be used on walkways or as individually torn off pads
- Heavy weight melt blown pads for increased absorbency
- Ultrasonically bonded with spaunbond for increased strength
- Dimpled design for rapid absorption
- Ideal for use indoors on most oil and water based liquids
- Absorbs 1.2 liters per pad
- Dimensions: 40cm x 50cm
- All products available in bags
- Item Code : SC-05-107H

Our range of **Heavy Weight pads** are a melt blown, ultrasonically bonded with spaunbond, highly versatile absorbent that can be used inside working environments to absorb most oil and water based liquids including paints, solvents, coolants and mild chemicals.

Measuring 40cm x 50cm in width & length allows for the pad to be adapted for a number of different applications, such as being used as maintenance, repair and cleanup operations and located next to machines that have a tendency to leak or spray.

They are bonded for increased strength and durability with a dimpled surface that quickens up the wicking process for rapid absorption.
