

TECHNICAL DATA SHEET

FLAMMABLE CABINET YELLOW 30 GALLON

DESCRIPTION

BULLMAN Technology Global leader and manufacturer in Industrial Safety Cabinet Focusing makes it professional BULLMAN has various industrial safety cabinets of different dimensions, which provide safe storage for flammable liquid and chemicals. It features compact size, storing easily flammable liquid and organic solvent, saving much troubles and time spent on the way to retrieve them in dangerous goods room. Even in small working space, compact industrial safety cabinet provides you complete safety and convenience in storing flammable liquid and chemicals.

- Complete double layer fire proof sheet steel, 38mm insulation layer is put in between double layer wall space.
- Sheet steel of thickness over 1.0mm all-welded together making it more durable and robust, with better fire proof capacity.
- Three-point inter-active locking system, easy open-close 180-degree cabinet door with double keys.
- Spill control sill of 5cm height prevent maximum leak control on accidental spill.
- Professional and standard warning label of high visibility.
- Double vents with flame arrestor set on the cabinet.
- Unique spill control and leakage shelves can be easily adjusted between up-down hooking supporter.
- Inside of cabinet is sprayed with permanent and lead-free paints.

BULLMAN industrial safety cabinet complies with OSAH 29 CER 1910.106 and NFPA CODE 30, FM standard.

Specification

Model	Outside dimensions (H*W*D/mm)	Weight (kg)	Adjustable shelves/ Capacity(kg)	Volume (Gallon/Liter)	Remark
BFC0030Y	1110*1090*460	100	2/50	30/114	Double Door

GLOBAL EXPERT ON SAFE STORAGE SYSTEM

Fireproofing ventilation hole at both sides of the cabinet, one on the top and the other on the bottom

Anti-Static Device conductor grip combine the equipment with the cabinet to conduct the static to earth, thus to prevent fire accident.

Wholly structured and formed safety shelves direct spills to back and bottom of leak proof sump. adjustable on 2.36-in(60-mm) centers for versatile storage.

Highly secure lock with dual protection (padlock and key lock) makes storage safer-Master™ lock also available as optional lock device.

Stainless steel, 3-point bullet self-latching system provides easy, fail-safe, positive door closure with increased heat resistance.

Stringent compliance with OSHA regulation - cabinet is earthed with static ground connection, easily making earth leading possible.

Strongly advised to adopt cabinets conforming to NFPA 30 or UFC 79 regulation. In chapter 4.3 of NFPA 2000 version, the design, construction and volume required was cleared stated. Apart from the requirement of fireproof test, NFPA further stipulated the construction requirement of special fireproof cabinet.

Besides development and manufacturing of fire resistant filing cabinet, we are also specialized in industrial safety cabinet (Bullman), which completely complying with OSHA standard and NFPA 30 regulation, intended to store flammable and combustible liquid and dangerous chemicals.

Bullman industrial safety cabinet currently has 3 colors of 6 models.

Three colors differentiates clearly different types of liquid. Yellow represents flammable liquid storage, Red represents combustible liquid storage and Blue represents corrosive liquid storage. The 4-digit symbols the cubic storage capacity in gallons.

Not only high performance fireproof and anti-corrosion materials were used for cabinet, but humanized design was introduced in to have manually operated double doors. Each vent with flame arrestor is set on each both lateral sides of the cabinet to reduce inner gas density to achieve fireproof function. Besides, 4 adjustable leveling legs are set below the base to ensure the cabinet steady and rest easy.

Bullman Industrial Flammable Cabinet Available In Different Sizes, 4, 12,22,30,45,60,90 & 110 Gallon
